NOTIFICATION

SUBJECT: MANDATORY TEACHER & TUTOR TRAINING PROGRAMME FOR OPEN SCHOOLING FACULTY (2023)

CBOSE hereby announces the implementation of the **Mandatory Teacher & Tutor Training Programme – 2023**, applicable to all teaching and tutoring personnel engaged with CBOSE-affiliated institutions. This initiative is introduced in recognition of the critical role educators play in shaping the open schooling experience and ensuring high-quality academic support for learners.

Open schooling is fundamentally different from traditional schooling. Learners in open schooling often come from varied ages, backgrounds, life situations and learning capacities. To effectively address these diverse needs, teachers must be trained in flexible pedagogy, adult education techniques, assignment facilitation, digital learning integration, and counselling-based teaching approaches. Many educators, however, continue to use conventional teaching methods that do not fully support the demands of self-paced, independent learning systems.

To address this gap, the Board has introduced a compulsory training program that includes modules on open schooling pedagogy, digital resource creation, handling long-gap learners, supporting differently-abled students, practical exam preparation, and use of NEP-aligned competency-based teaching techniques. Faculty members must complete at least one certified training cycle every academic year.

The training program will be delivered through in-person workshops, virtual sessions and recorded modules accessible through the CBOSE Digital Training Portal. Upon completion, teachers will receive a mandatory certification that will be required for continued service in affiliated open schooling centres.

This notification is issued to ensure that educators are fully equipped to support open schooling learners effectively, scientifically and compassionately.
